"Everybody Is Easy"

Visit "[Everybody Is Easy](#)" on MotoLyrics.com

verybody is easy
Everybody is easy
Everybody is strong
Everybody would leave me every time I go wrong
The song is a secret
The song is a lie
Don't you try to sing along, you forget the words every
time

We're stuck in the middle with a little that we make
And our heads are spinning
Were beginning something great

Everybody gets even
Everybody gets high
Everybody gets lonely watching TV at night
But the moon is a great sight and it pulls the tide
Fuck everything you know and come on outside

We're stuck in the middle with a little that we make
And our heads are spinning
Were beginning something great
We sink, we swim
Seems like it's been this way forever
We sink, we swim together

I want you now
I want you more than I can say
Don't let this moment slip away

Everybody is easy
Everybody is strong

We're stuck in the middle with a little that we make
And our heads are spinning
Were beginning something great
We sink, we swim
It's been this way forever
We sink, we swim together
