"Your Fault"

"This is all your fault", she said
"Your troubles and your tears
This is all your fault
And you and me all ends right here"

Did I let you down? Did I let you down?
Did I let you walk away, walk away?
Everything we make, we break apart

This is what you get
The lies politely disappear
Did you forget
The way we carried on for years?

Did I let you down? Did I let you down?
Did I let you walk away, walk away?
Everything we make we break apart

We break apart, we break apart, yeah yeah
We break apart, we break apart, oh
And it's all your fault

Did I let you down? Did I let you down?
Did I let you down? Did I let you down?
Did I let you down? Did I let you down?

Did I let you down?
Did I let you walk away, walk away?
Everything we make we break apart
And it's all your fault, ooh
