You say look outside
Rain is pouring down
Lets stay and hide
I say what the hell
We've got things to do
We might as well stay and rebel

Maybe we will be everything we say
Maybe all that we dream will fade to grey
Either way, I will stay
With you

They say pay your bills
Earn your daily bread

Take all your pills
We say look around
At the heart of things
Share what you've found
Stand your ground

Maybe we will be everything we say
Maybe all that we dream will fade to grey
Either way, I will stay
With you, with you

Maybe we will be everything we say
Maybe all that we dream will fade to grey
Either way, I will stay
With you
