This is the end  
Killed by evil  
Will we defend pre-made icons

Machine guns grind us down  
The last gears turn and fade away  
Machine guns grind us down  
Our fatal course is set to burn

Mass destruction  
Our devil laughs  
No election break the union

Machine guns grind us down  
The last gears turn and fade away  
This fatal story you won't learn

You've got sick aspirations  
Ignite the candle in the night  
(Ordered the last incisions)  
This candid slaughter of delight  
You kick the candle in the night  
This black hour of delight

Erupt the fields  
Kill the village  
It's time to kneel  
No one listening

Machine guns grind us down  
The last gears turn and fade away  
Machine guns grind us down  
This automatic hand you yearn

Sad for goodbye  
Candle of night was it tonight  
Time for delight  
Wake up you'll die  
Time for you  
War, live, for, die  
War, die, war

Dead before  
Lock down dead before you wake  
Sick Sunday mistake  
Lock down dead before you wake  
Suddenly I hate
