Through these eyes open to life (X3), through these  
eyes  
Unfolded, escape reality, unfolded

See what you see  
See what you see  
Blood thrown before me, do you see what i see  
Blood thrown before me, dreams killed by star lit  
harmony  
As blood thrown before me

Lost are those that don't believe that walk with their  
eyes

Shut final conclusions written in the blood of the narrow  
minded

Rise above the next level of survival  
Why that I ask, this only question i ask
