Roar  
Roar  
Roar

C'MON!

Storm clouds hanging over head  
Offer not the slightest bit of comfort  
For the first time in days  
I wake to discover  
Disasters that I've slept through  
While I felt so alive

So we say goodbye  
So we say goodbye  
Heartstrings severed just as quick  
As they were discovered  
So we say goodbye  
So we say goodbye  
I'll break my own fall, to keep you, picture perfect  
Just don't wake me up now

Say goodbye  
Close your eyes for the last time  
(Say goodbye and close your eyes)  
Questioning everything that went wrong

In silence she whispers to me  
Telling me things we dare to speak out loud  
The collaboration of blinding sun  
Through vacant streets hits home hard  
Like a hatchet to the skull  
I'd keep you here if you keep me warm  
And these winters away  
Your arms were the only arms needed to hold me  
For the first time in days  
I feel alive

In the end we'll both rot together  
In the end we'll rot together,  
Our love lies in embers.  
In the end we'll both rot together

In the end we'll rot together  
Our love lies in embers.

Say goodbye  
Close your eyes for the last time  
(Say goodbye and close your eyes)  
Questioning everything that went wrong  
(Questioning everything that went wrong.)

Peering out of those same cracked windows  
That I studied for days upon days  
Suddenly collapse  
It all falls down  
It all falls down.

Say goodbye  
Close your eyes for the last time  
(Say goodbye and close your eyes)  
Questioning everything that went wrong  
(Question everything that went wrong.)

So say goodbye,  
So close your eyes.  
So say goodbye,  
Say goodbye and close your eyes.  
So say goodbye, so close your eyes, say goodbye and  
close your eyes, CLOSE YOUR EYES!... Tonight!
