Wide awake in the candlelight  
Stoned straight, crashing ocean wave  
Patterns and sunset in their prime  
Shoulder demons tell me how to lie  
When it matters, when it matters, oh  
And you better hope that you see it coming

That you see it coming

Painted gray and blurry  
I am waiting for the sock to drop  
Yes, I can fake it, hide, run away  
When there's nothing left, nothing left to know

Ho, nothing  
Ho, nothing  
Woah, nothing to know

Lonely like a living room  
Hallway noises and interviews  
Squeeze the globe in between your legs  
And hope God knows when to show his face  
When it matters, when it matters, oh  
And you better hope that you're feeling something

I'm feeling, I'm feeling

Pained by the worry  
I am stained by the learning of what I can't  
Feel, see, think, undo, I'm going to Mexico  
Where there's nothing but the sun

Ho, nothing  
Ho, nothing  
Oh, nothing but sun

The four walls entertaining me  
Are symbols of my contentment  
Of mental and legal poverty  
Nine out of ten can't be wrong

I, I have never learned

The secret of velocity  
As I expand I feel small

I, I have nothing left  
That I can draw from  
I have nothing left, nothing
