Broke down, busted  
Hot wired, dusty  
I stole my car from the city lot  
Cause last night's buzz is all I got -  
Now I'm rolling, wide eyed, I'm never stuck on the  
sidelines  
Ask me why I gotta leave this town again

I'll do what it takes to stay alive  
Forget the rules; they don't apply  
I'd lose my mind at your 9 to 5  
Cause it's not my kind of life

I just wanna know why  
Why I gotta be quiet  
I don't wanna just sit down and shut my mouth  
All these things I could do without  
I wanna new life  
I just wanna drive all night  
Wake up in the sunrise and love myself again!

We're living on nothin'  
Reachin' for somethin'  
Cheap t-shirts, old blue jeans  
Big black boots and too much caffeine  
Yeah I'm a smart ass, I'm up tight, I never back down  
from a fistfight  
Might be why I gotta leave this town again!

I'll do what it takes to stay alive  
Forget the rules; they don't apply  
I'd lose my mind at your 9 to 5  
Cause it's not my kind of life

I just wanna know why  
Why I gotta be quiet  
I don't wanna just sit down and shut my mouth

All that crap I could do without  
I wanna new life  
I just wanna drive all night  
Wake up in the sunrise and love myself again!

And who are they to call me crazy  
(You see what you wanna see)  
You know their never gonna change me  
(Cause I'll be who I wanna be)  
We gotta live the way we wanna  
Cause nobody ever oughta just waste away, waste  
away

And what's wrong with being happy  
(Ya know you'd love it if you tried)  
I know that everybody can be  
(If only for a little while)

We're gonna make it to the end  
Ya gotta chase it till ya win, I wanna feel free, I wanna  
be free

I wanna new life  
I wanna drive all night  
I wanna wake up in the sunrise and love myself again

I just wanna know why  
Why I gotta be quiet  
I don't wanna just sit down and shut my mouth  
All this shit I could do without  
I wanna new life  
I just wanna drive all night  
Wake up in the sunrise and love myself again!

(We gotta live the way we wanna cause nobody ever  
oughta just waste away)
