

I Rise "Realism"

You call me crazy for my beliefs, or should I say the
lack there of. But
your the one that lives life for death, praying second
after second to an
imaginary figure head.
And you question my morals, question my ethics,
critique my fucking way of
life. This is the life that I chose, these are the choices I
make, and I
refuse to fucking listen to whatever you say. You stupid
fools never stop
and question, never listen to reason, you just do what
you are told. You
murder, lie, and steal and justify it by calming he's
real, and that he

speaks to you.
And people acutely believe. They acutely fucking
believe it. But I don't.
I am real, I am the realist, this is realism.
There gonna fucking try to lie to us again, and force
there bullshit
propaganda into our heads about this so called
"freedom". There all just a
bunch of fucking liars. And I refuse to believe.
You'd die for this, you'd take lives for this, but wont
stop to question!
