Can we start again  
Go back to what it meant back then  
Open minds and open hearts  
The things that set us apart

Can we start again  
Go back to what it meant back then  
Open minds and open hearts  
The things that set us apart

Was it more than words  
And do they still apply  
And do you still believe  
Well so do I

Was it more than words  
And do they still apply  
And do you still believe  
Well so do I

I was a 15 year old kid  
With nowhere to fit in  
When someone told me about a place  
Where the strange were accepted  
And judged by what's inside  
A scene of truly open minds  
Somewhere, somehow everything has changed  
Look at what we've gotten ourselves caught up in  
Let's take a look at ourselves

Can we start again  
Go back to what it meant back then  
Open minds and open hearts  
The things that set us apart

Can we start again  
Go back to what it meant back then  
Open minds and open hearts  
The things that set us apart

The same mindless clicks

The same high school shit  
All the walls you scream about breaking down  
I've watched you build brick by brick

The same mindless clicks  
The same high school shit  
All the walls you scream about breaking down  
I've watched you build brick by brick

Can we start again  
Go back to what it meant back then  
Open minds and open hearts  
The things that set us apart

Was it more than words  
And do they still apply  
And do you still believe  
Well so do I  
So do I

Was it more than words  
And do they still apply  
And do you still believe  
Well so do I  
So do I

Was it more than words  
Can we start again  
And do they still apply  
Go back to what it meant back then  
And do you still believe  
Do you still believe  
Well so do I  
So do I
