I don't feel uncompensated , when I saw you stay  
awake  
Feel all the aspartic, why am I still awake?  
You don't know what's coming to you, so you look just  
straight away  
Stroke like a sissy and still the hell im awake?

Reality, it's a motion from the radian  
You tried to kill yourself, from Essen ream

This is a seizure, this is a different seizure  
Were you supposed to beat him?  
You wouldn't believe him

Doesn't matter if he crashed your nebulas  
Knowing that's hes more bitter than what's sweet  
Get me some hot potentials, they'll try to make the  
antidote

This is a new washer, giving up keeps moving the  
corpful era

Just stick away man, that crazy ass touching out of my  
sight  
You can't tell him, your abrasions are wrong and I  
DON'T KNOW WHICH IS LIFE!  
So sweetly just pick up the pieces, the Christmas bakery  
YARON!  
They say calculating your friends and dragging them  
quickly out of their well  
And then we bribe them, cause they dragged me  
another realm.  
They need to stare into his, Crystal balls of magicness  
And they don't realize I was kind of abducted by the  
good...unless

Your ruining, was used to long, and your intensity is  
tarnishing quickly  
My inquiring, is asked for rated no longer as a  
illumination but I don't want it

It recedes, from through the sea, take your fuck and

get in front of me!  
I'm going to turn into sea shin, you don't know about  
the last words of SILENCE!  
Take a break, motherfucker, turn into asterism  
I'm just racing on the orbit, like how the fuck did I get  
here?  
Here you go, turn it in, or I will lose your presence,  
Someone else got crazy for, your astray and egotism
