I've got this broken heart  
You say you can fix  
Girl I've heard those words before  
I've tried everything known to a man to numb the pain  
And there's one thing for sure

Chorus : I need something just a little bit stronger  
Something that'll take me just a little bit higher  
For a little bit longer  
Whiskey never helped a lot  
Go ahead, give it your best shot  
'Cause I need something a little bit stronger

Thought I could ride it out  
Just needed time to heal  
Some things a man can't do alone  
Thought I had the will  
To change the way my heart feels  
Baby I was wrong

Repeat Chorus

Oh, the whiskey never helped a lot  
Go ahead, give it your best shot  
'Cause I need something a little bit stronger  
Oh I need something a little bit stronger  
A little bit stronger
