I never thought I'd say it, but I can't take anymore
We both work so hard that I forgot just what it was that
we've been working for
This daily grind has wore us down where we hardly
even talk when we come home
Girl I think it would be best for us if I had some time
alone

Chorus:

Alone with you, together in love
Where we can't be reached while we get back in touch
Darlin lets pull the shades and kill the lights in this
room
I need some time alone, alone with you
I could go stay at my brother's and ask him why he
thinks we've grown apart
Then come back in a week or two and try to make a
brand new start
Or I could belly-up to Shady's bar and tell 'em all just
where we went wrong
But I think we'd be better off If I just spent some time
alone

Chorus:

Alone with you, together in love
Where we can't be reached while we get back in touch
Darlin lets pull the shades and kill the lights in this
room
I need some time alone, alone with you
Darlin lets pull the shades and kill the lights in this
room
I need some time alone, alone with you
