Restless, I was so restless, wondering what I would do
And all the time, though I didn't know it, I was lookin'
for you
Lonely, I was so lonely, wondering why I was blue
And all the time, though I didn't know it, I was lookin'
for you
Restless and lonely, something was wrong, my life was
not complete
Searching for something, I didn't know what, until you
came to me
Restless, I was so restless, wondering what I could do
And all the time, though I didn't know it, I was lookin'
for you
