Well this crush, it hurts so bad  
I really wish that I had you  
When you're not around I wish I was dead  
I know, I'll hold a handgun to your head  
'cause it's the only way  
to make sure you'll say, okay

I'm going to ask you out at gunpoint  
I know it'll work  
Ask you out at gunpoint  
Please don't think I'm a jerk  
Ask you out at gunpoint  
We'll start with a gun  
Ask you out at gunpoint  
It will soon grow into love  
Now I've got you in my sights  
When your around I feel so right  
I know you'll see that I'm the one  
I won't take your rejection  
'cause it's the only way

to make sure you'll say, okay

I'm going to ask you out at gunpoint  
I know it'll work  
Ask you out at gunpoint  
Please don't think I'm a jerk  
Ask you out at gunpoint  
We'll start with a gun  
Ask you out at gunpoint  
It will soon grow into love  
There you are and here I go  
I've got plenty of a-a-a-a-ammo  
I'll aim the gun  
And ask the big question
