You're looking pretty good girl
Smile into the camera
Those guys from Hollywood
I bet they're gonna pick ya

You're off to bigger things
Leaving me behind you
You're famous I'm just lame
I'm never gonna get ya

Sound the alarm, you'll be a star
And there's nothing I can do
Sound the alarm
This weather sucks without you

I've got a first class ticket
To a night without you
I'll watch your movie
But it won't be as it used to

You say we need some breath
But what we need is distance
Make room for you to cheat
You never even listened

Sound the alarm, you'll be a star
And there's nothing I can do
Sound the alarm
This weather sucks without [Breakdown!]

Sound the alarm, you'll be a star
And there's nothing I can do
Sound the alarm
Sound the alarm, you'll be a star
And there's nothing I can do
Sound the alarm
Sound the alarm
This weather sucks without you
