"Respect The Jux"

Visit "[Respect The Jux](#)" on MotoLyrics.com

It's funny how I used to see you very day
But on one particular day I looked over at you in the
usual... way
And it seen as like I've never seen you before
It thought strange that I used to deny like just
And it... on me like I never been

... it's close you, it's close to you

Yes, I'm in the chromiest dark
Listen to something lonely as mark
Blowing on the... in the stock
Trippin something in the trunk
Still hoping to jux
Hoping to find something to blind, ignite something
And greet you... here what you want...
It's never worked around here, they make jock moves
Trying to chase me broke them down with jock moves
Muscle on the slice,... around is a...
Took a few pounds, flew out of town to make good
moves
Bad is the fly in the stewardess
... dark money swimming in the pool...
Nudy chains tall hangin out of...
Foolishness almost got him killed
Now my shoulder's piss, yeah
Try to get me for a kill too, rope around his neck
Hung tight from the tree of doom

It's not a game out here so pay attention
Kids popping dangs out here and it ain't missing
Respect the jux can't jux no cane givin [?]
Murder she wrote read by the book, you ain't listenin
[x2]

This is something like... when he crossed the border
Take my... across the water then I put my plan in order
Yeah, kinda similar to the order, reminds I get down
Like the mambo on 4th corner
It gets real when you do you get drilla
Cause... boys got order to deliver

You taking pictures shopping but the fans taking
pictures
They bring the coke and then arrest
You for what they gift us
Catch 22 so I begin if I'm in this... the 22, never
Automatically I show them what the semi do
You won't forgive me but I gotta live
And if I ain't getting then somebody's gotta get

A whole hour and a half to where momma lives
... you ask why I reply, cause momma never...
understand...
... Undercovers trying to infiltrate, penetrate
Down my court of glory but I'm a zone and my business
straight
One step ahead... connecting the crooks
So hommie if you... a crook you better respect the chips
Yes sir, flied up, what it is my G
... that's right
... that's us.

It's not a game out here so pay attention
Kids popping dangs out here and it ain't missing
Respect the jux can't jux no cane givin [?]
Murder she wrote read by the book, you ain't listenin
[x2]

Never do, never, never, never know
... that I want to be this close to you.
