Problems can't be solved at home. This situation never changes.

A Violent tale for our eyes to see. Unbeleivable mythology.

And you enjoy it. you're fame casts as long as the fight

The end result is hand to hand. Coreographed and planned. Disgracefull acts for minutes of fame. But we just can't llook away.

Violence breeding capital gain. Temporarily insane.

Why are we so interested?Where do we point the blame?

The same people. The same problems. The same time.

The same place
