Talk: Yeah, you know.
Everybody wanna do it in their car, on the stairs,
In the rain, I wanna do it in the studio.

[Verse 1:]

Girl let me know
Just what I gotta do to get you all alone
Cause I'm feigning you softly
Girl I'm in the zone
So let's pop in a CD of Luther Vandross
(If that's what it takes)
Just tell me, them headphones on
Lemme know if the levels too low
Cause I can surely turn em up
(I) I know you're feeling me
I know you want it (just tell me)

[Pre-Chorus:]

I wanna do a broad accession all over your body
Before you stack them high notes
Lemme see you testing mine
(Girl lemme see 200, tapping you from the rear)
Sit back and relax, Girl we gon have some fun

[Chorus:]

In the studio just me and you
Girl nobody but us two
In the studio with no interruptions
In the studio waiting about to
(Girl) to touch t-touch you
In the studio (woah) In the studio

[Verse 2:]

Now that I got you all over my mixing board
Make sure you don't bump your head on my monitor

We gon' make a good love song
Girl I'll be your engineer, I'll listen to you
Girl I got you (yeah)
Scream as loud as you want 'cause its soundproof
No other guy tune you up like I do
No need for compression

This is my profession

[Pre-Chorus:]

I wanna do a broad accession all over your body
Before you stack them high notes
Lemme see you testing mine
(Girl lemme see 200, tapping you from the rear)
Sit back and relax, Girl we gon have some fun

[Chorus:]

In the studio just me and you
Girl nobody but us two
In the studio with no interruptions
In the studio waiting about to
(Girl) to touch t-touch you
In the studio (woah) In the studio

[Talk:]

Like I said before
Everybody wanna do it everywhere else
But I'm telling you, the best place
Is the studio

[Chorus:]

In the studio just me and you
Girl nobody but us two
In the studio with no interruptions
In the studio waiting about to
(Girl) to touch t-touch you
In the studio (woah) In the studio
