They say
Gonna break it down
Here we go
Yeah

They say love will drive you crazy
They say love ain't black or white
They think they know it all
They got some crystal ball
This time I know they're right, hey yeah

They say keep your sense of humor
No way that I can, you make me so mad
But you're the, the best I ever had
So I guess it's only natural
I should feel so irrational

Sometimes I hate you but I love you too
Wanna run away then I run to you
Got to push me 'til I pull through
They say that's what love will do

It makes me feel good 'til I wanna scream
It's a nightmare in my sweetest dream
Makes me insane in the membrane
They say that's what love will do

They say love is complicated
They say that's what makes it work
Monday you make me cry
Tuesday you dry my eyes
Someday we'll laugh until it hurts

I get so upset
But you know that's just how I get
So I'll give you both sides of my heart
Even though they're miles apart

Sometimes I hate you but I love you too
Wanna run away then I run to you
Got to push me 'til I pull through
They say that's what love will do

It makes me feel good 'til I wanna scream
It's a nightmare in my sweetest dream
Makes me insane in the membrane
They say that's what love will do, it will do yeah

Somethings can't be explained
They are wrong or right as rain
But love is so insane
And that's one thing you cannot change

Sometimes I hate you but I love you too
Wanna run away, then I run to you
Got to push me 'til I pull through
They say that's what love will do

It makes me feel good 'til I wanna scream
It's a nightmare in my sweetest dream
Makes me insane in the membrane
They say that's what love will do

Sometimes I hate you but I love you too
Wanna run away then I run to you
Got to push me 'til I pull through
They say that's what love will do

It makes me feel good 'til I wanna scream
It's a nightmare in my sweetest dream
Makes me insane in the membrane
They say that's what love will do

Sometimes I hate you
But I love you too
They say that's what love will do
To you
