She wants one
For nothing
To keep it
Reacting
Controlled then
Forever
She was
And never felt better

She's open
She's wildlife
Caressing
The bright life

Religious
Pleasure to pain
The kiss
The kill
The poetry
The freak way

The kiss
The kill
The poetry
The freak way

The kiss
The kill
And never felt better

She wants one
For nothing
To keep it
Reacting
Controlled then
Forever
She was
And never felt better

Pretty little angel
Can we play your game?

I will be gentle
I will move to your pace

Show me the reaction
Come home with me
Give it some attention
I was made for you
Built to please

She wants one
For nothing
To keep it
Reacting
Controlled then
Forever
She was
And never felt better

She's open
She's wildlife
Caressing
The bright life

Religious
Pleasure to pain
The kiss
The kill
The poetry
The freak way

Pretty little angel
Can we play your game?
I will be gentle
And will move to your pace

Show me the reaction
Come home with me
Give it some attention
I was made for you
Built to please

I can't forget you
You are the devil
You are the devil's foreplay
