You have been left alone
The creature of innocence
You lie for what you're worth
And struggle with your confidence

And when your devil complains
And tears you up, to start again
And when you're lying on your stage
And nothing works, just living hurts

Forget, forget
With the secret harmonic emotion
Forget, forget
With the secret harmonic emotion

And so we meet again
To players in a puppet show
Don't cry for audience
There's no one that can take you home

And when your devil complains
And tears you up, to start again
And when you're lying on your stage
And nothing works, just living hurts

Forget, forget
With the secret harmonic emotion
Forget, forget
With the secret harmonic emotion
Forget, forget
With the secret harmonic emotion

Forget, forget
With the secret harmonic emotion
Forget, forget
With the secret harmonic emotion
