## "Simple Girl"

The perfect taste that leaves your mouth  
The vodka tongue that spits it out

Violate me, January victim  
All my life I've wasted for this  
Violate me, show me your religion  
All my time I've waited

Simple girl, simple girl  
Need you in this world, my simple girl

And so the kiss became the cold  
After the crash and my cosmetic lows  
You resurrect me, stand me to attention  
Take my voices, learn to love them  
You're the Christmas promising the summer  
All my life I've waited

Simple girl, simple girl  
Need you in the world, my simple girl  
Simple girl, my simple girl  
My simple girl, my simple girl

Simple girl, my simple girl  
I need you in the world  
Want you in the world
