"The Negative Sex"

Pay no attention to obedience
The kicks and wishes fixed, and forgotten for my self
defense
We all want to fuck ourselves and rape the world
So the odds of a cult will prevail, in fantasy, not God,
not love, oh no...

We can't leave it alone
Oh no, we can't leave it alone

Because the negative sex was born into a bloodline,
The negative sex is power for a lifetime

Show man a mix of the alternative
It's all ammunition for the gender bend and the
bedroom twist
They say that the fashion's just not feminist
But the sweet and the turn on sits, with the laps of the
girls with the balls and the hips, oh no...

We can't leave it alone,
Oh no, we can't leave it alone

Because the negative sex was born into a bloodline,
The negative sex is power for a lifetime
Because the negative sex was born into a bloodline,
The negative sex is power for a lifetime

Sex for a lifetime
Oh, oh
Sex for a lifetime
Oh, oh
Sex for a lifetime
