You stick it in me, then go to her
You stick it in me, then go to her
You stick it in me, then go to her
And then you touched me
Life question

You stick it in me, then go to her
You stick it in me, then go to her
You stick it in me, then go to her
And then you touched me
Life question

You touch me
My voice breaks
I'm crawling in the grass
I fake rape

I love you
You sex clown
I try to fill the hole
Where you climb down

I have blood, so hurt me
I have blood, so hurt me
I have blood, so hurt me
I have blood, so hurt me

You stick it in me, then go to her
You stick it in me, then go to her
You stick it in me, then go to her
And then you touched me
Life question

You stick it in me, then go to her
You stick it in me, then go to her
You stick it in me, then go to her
And then you touched me
Life question

You touch me
My voice breaks
I'm crawling in the grass

I fake rape

I love you
You sex clown
I try to fill the hole
Where you climb down

I have blood, so hurt me
I have blood, so hurt me-e-e-e
I have blood, so hurt me
I have blood, so hurt me

You stick it in me, then go to her
You stick it in me, then go to her
You stick it in me, then go to her
And then you touched me
Life question

You stick it in me, then go to her
You stick it in me, then go to her
You stick it in me, then go to her
And then you touched me
Life question
Life question
Life question
