Through the haze of the smoke in the room  
I caught your golden gaze  
I knew these were better days  
With the rays of the sun through the roof  
I caught your golden gaze  
Knew these were better days  
Your golden gaze  
Golden gaze your golden gaze  
Your golden gaze  
Star spangled shades shade your eyes  
But could never hide your golden gaze  
Your golden gaze  
Red summer skies bright your smile  
And could never hide your golden gaze  
Your golden gaze  
In the dawn of the morning rain  
I caught your golden gaze  
Golden days  
Your golden gaze  
Through the haze of the smoke in the room  
I caught your golden gaze  
I knew these were better days  
Your golden gaze  
Your golden gaze
