Space exploration for nuclear stations
NASA corrupters, jeweled abductors
Space exploration, excursion to stars
On a military mission, on a military journey to Mars

I'll see you in my star
I'll see you in my star
I'll see you in my star

I'll see you in my star
I'll see you in my star
I'll see you in my star

Solar system bases, the new world order
Lust for space dust, forming galaxy borders
Never seeking new life, only planning war
Sending satellites at new height, satellites to destroy
them all

I'll see you in my star
I'll see you in my star
I'll see you in my star

Space exploration for nuclear stations
NASA corrupters, jeweled abductors
Space exploration, excursion to the stars
On a military mission, on a military journey to Mars

To boldly go where no man's ever been before
Astronauts, the new conquistadors

See you in my star
I'll see you in my star

I'll see you in my star
I'll see you in my star

See you in my star
I'll see you in my star
See you in my star
I'll see you in my star

See you in my star
I'll see you in my star
