You think it's cool to make me wait with baited breath
for what you say
You think it's cool to be the overlord of all that you
survey
You think it's clever being clever, that you wear your
fortune well
You think it's cool to be the foxy one, but time alone
will tell that -

It ain't cool
(It ain't cool)
It ain't cool
(It ain't cool)

You think it's cool to be the comic, making cracks at my
expense
You think it's cool to sit in judgement when I ain't got
no defense
You think it's witty being witty, when you know my
tongue is tied
You think it's cool to be a prankster but your jokes are
passing ride

It ain't cool
(It ain't cool)
It ain't cool
(It ain't cool)

It ain't cool to count your blessings one by one (it
ain't cool)
It ain't cool to say you've done what you ain't done
(it ain't cool)
It ain't cool to claim your winnings when you put on
your beginnings
And another persons innings has begun

You think it's cool to be a sharpie as you cut me
down to size
But it ain't cool (it ain't cool)
You think it's cool to brush aside the little people you
disperse
But it ain't cool (it ain't cool)

You think it's nifty being nifty, and you think you're
no-one's fool
But you ain't cool (you ain't cool)
You think it's cool to hold your victim up to cruel
ridicule
But it ain't cool (it ain't cool)

It ain't cool to be a clucker
It ain't cool to be a crutt
It ain't cool to make your mucker
Wait upon that if you but
It ain't cool to think you're pucker
When you're tearing off a sheet
It ain't cool to make a sucker out of everyone you
meet
It ain't cool (it ain't cool)

It ain't cool to count your blessings one by one (it
ain't cool)
It ain't cool to say you've done what you ain't done
(it ain't cool)
It ain't cool to do subtraction, when you're checking
every fraction
Now your little peice of action has begun

It ain't cool (it ain't cool)
It ain't cool (it ain't cool)
It ain't cool (it ain't cool)
It ain't cool (it ain't cool)
It ain't cool (it ain't cool)
It ain't cool (it ain't cool)
It ain't cool (it ain't cool)
It ain't cool (it ain't cool)
It ain't cool (it ain't cool)
It ain't cool (it ain't cool)
