There's no such thing as heart-ache  
Tomorrow you'll be gone  
There's no such thing as yesterday  
The memory lingers on  
There's no such thing as thank you  
When no-one hears your please  
There's no such thing as helping out  
But willing on the knees

There's no such thing as change your mind  
Salvation from above  
There's no time like the present  
There's no such thing as love

There no such thing as lonely  
The world's been dry too long  
There's no such thing as turn around  
Back where you belong

There's no such thing as easing out  
When squeeze becomes a shove  
There's no change out of sixpence  
There's no such things as love

There's no such thing as heart-ache  
Tomorrow you'll be gone  
There's no such thing as yesterday  
The memory lingers on

There's no such thing as change your mind  
Salvation from above  
There's no time like the present  
There's no such thing as love
