I saw her in the gloom  
As she moved across the room  
The animal was burning in her eye  
She took him by the hand  
But he didn't understand her

He wouldn't be the one to satisfy  
Got to wait, no mistake  
I've got to take my chance  
Be there beware  
The secret of the dance

I moved a little closer  
So maybe I could show her  
The way I felt the way I knew  
It was more than a game  
I was getting loaded  
So I touched her and exploded

That was it, I knew my life  
Would never be the same  
It's too late, I can't escape  
I went and blew my chance  
And so I'll never know  
The secret of the dance

As she dances feel her power  
Notice how her thighs entrance  
And draw you to the secret of the dance
