I have a dream, it's only one dream  
But I know dreams can come true  
And I have a wish, it's only one wish  
But I know wishes can too

I wanna be far away from here  
With those honky tonk heroes  
Burnin' my ears, oh

Love American music  
I play it all night long  
Just me n' records  
N' a vivid imagination

I love to dance in the mirror  
I practice every single word  
And it seems to me American music  
Is all I've ever heard

Oh, oh, oh, oh, oh, oh  
It's lonely on the underground  
I sit and watch my world go  
Round n' round n' round n' round n' round  
I sit and watch the world go round

I hear the sons of Memphis  
I hear the brothers or Harlem  
I hear the Nashville Cats  
N' the rag time mamas outta New Orleans

I hear the Windy City  
I hear a gospel singers hymn  
And it seems to me  
American music is all there's ever been

C'mon baby, oh, oh, oh, oh, ooh ooh  
I love the names of the cities  
I hear the echo echoing  
And it seems to me American music  
Is all there's ever been
