Hear a song
Sing along
The words you... identify
You don't
Feel so alone tonight

So rest your soul now
Cause music saves your life
Rest your soul now
Cause music saves your life

Lay your head... down in bead
To a tune that spins on and on
Just drift along, drift along
So long, so long

Rest your soul now
Cause music saves your life
Rest your soul now
Cause music saves your life
Rest your soul now
Cause music saves your life
Rest your soul now
Cause music saves your life
Rest your soul now
Cause music saves your life
Hear a song
