Lights all around  
I'm going down town  
Congress Avenue Bridge  
Is taking me home

It's 2 a.m.  
My girlfriend's sleeping again  
This melody  
Is taking me home

Open up your wicker basket  
Shoulder satchel  
Name your tasks and find a spot  
Take the ones you need

Mold 'em gently, find familiar  
Know the meaning  
You can understand which way  
The fates will go

The glitter and the gaudy show  
You'll never have to feel alone  
So find your way  
And find your way back home

My kittens black  
He knows where life's at  
He takes his time  
He takes it slow  
Takes it slow
