[Verse]

You've stood alone, patiently
Your only crime, a different point of view
Taught to fight, too stand your ground
A way of life, integrity so real

[Bridge]

Amidst the pain and the suffering
Exists a faith and a heart, that's made of steel
To break the chain of fear

[Chorus]

To the millions of People, alone and scared
It's time to face your fear
We all possess the strength
In time, it will appear
To break the chain of fear

[Verse]

You've been, lookin' for a way
An' searching for your dreams
All the time the answer is there
As clear as day, but you're blinded by fear

[Bridge]

No hiding in shame
You're strong enough, to stand-up for yourself
I know, I seen it before

[Repeat Chorus]

[Ad-libs:]

It's up to you, Keep on going, there's no-use to run
away
Keep in goin', don't hide in shame, break the chain of
fear

[Backing vocals]

You've gotta keep on going
You've passed the point of no return
