[Verse]

I'm surrounded by hatred  
It's destroying my soul, an evolutionary sin  
Is it part of our D.N.A.  
This aggression nature within

[Bridge]

A hundred thousand years  
And still we can not learn, to live amongst ourselves  
Together peaceably, without the need to kill

[Chorus]

I wanna be, somewhere else  
Wish I could find, my garden of eden  
Perfectly, by myself  
Locked inside, my garden of eden

[Verse]

To suffer indifference, you don't have a voice  
Such unaccountability  
Is a misconceptual way  
Created a wave of rage

[Repeat Bridge & Chorus]

[Solo]

[Repeat Chorus]

[Ad-libs:]

Locked inside... by myself
