Oh oh oh oh oh oh [x4]

It was just another day hanging on the level  
Weather incredible waiting daydreaming 'bout you  
Then I saw you pass my way, looked just like in the  
magazine  
Made my heartbeat stop pop I was onto you

Oh-oh oh-oh  
It's got me thinking superstar  
Oh-oh oh-oh  
The way you shine from so far  
Oh-oh oh-oh  
You had me caught up in your limelight  
And it feels so right

It's like that  
You really got me going so crazy  
It's like this  
Wish you and me could be together  
It's like that  
'Cause baby you're my everything  
Can I get your autograph au-au-au autograph?

It's like that  
You really got me chasing like crazy  
It's like this  
No I don't want to wait forever  
It's like that  
'Cause baby you're the world to me  
Can I get your autograph au-au-au autograph?

No never did I think  
That I could ever feel this way  
Your lightening struck once  
Now you're stuck up in my memory  
I know I'm aiming high  
But wish somehow you would notice me  
I believe that someday I'll be in your gallery

Oh-oh oh-oh

It's got me thinking superstar  
Oh-oh oh-oh  
The way you shine from so far  
Oh-oh oh-oh  
You had me caught up in your limelight  
And it feels so right

It's like that  
You really got me going so crazy  
It's like this  
Wish you and me could be together  
It's like that  
'Cause baby you're my everything  
Can I get your autograph au-au-au autograph?

It's like that  
You really got me chasing like crazy  
It's like this  
No I don't want to wait forever  
It's like that  
'Cause baby you're the world to me  
Can I get your autograph au-au-au autograph?

Don't wanna be a face, face in the crowd  
Another fan always hanging around  
'Cause baby you're everything  
You are my shining star  
And when the lights, lights come down  
Can I be the one that you're be calling around  
You're my everything, my everything  
You mean the world to me

It's like that  
You really got me going so crazy  
It's like this  
Wish you and me could be together  
It's like that  
'Cause baby you're my everything  
Can I get your autograph au-au-au autograph?

It's like that  
You really got me chasing like crazy  
It's like this  
No I don't want to wait forever  
It's like that  
'Cause baby you're the world to me  
Can I get your autograph au-au-au autograph?
