Don't rush me, just this once
I want to make this moment last
Slow down the pace, there's no hurry
I can't let another pass me by again
Let me be the one to say when I've had enough
Just let me, close my eyes, memorize
The way things are this minute
So when you're gone, I can go on
If memory can hold within it what I'm feeling
Should time try fading or stealing something away
Hold on, nothing's the same
Tell me why I feel this way
Life wouldn't be worth living without you
All along I've been the pretender
But now that's gone forever
Nobody's ever loved me like you do
Nobody's broken through
Got to concentrate, file away

Every last detail
I don't want to lose what's going down
I want to remember everything I'm feeling
Should time try fading or stealing something away
Hold on, nothing's the same
Tell me why I feel this way
Life wouldn't be worth living without you
All along I've been the pretender
But now that's gone forever
Nobody's ever loved me like you do
Nobody's broken through
(Nobody's ever loved like you)
Nobody loves me like you do
(Nobody's ever broken through)
Nobody's ever broken through
(Nobody's ever loved like you)
(No nobody's loves like you)
Nobody's ever broken through
(Nobody's ever broken through)
