She's in her darkest hour  
It's a domestic fight  
She's gazing down the tower  
She wants to take a flight

There's something with his head  
Cause school is just too tough  
He wants to cut his thread  
His way to score enough

They're on a path of trouble  
They're teamed up with despair  
Their mind is one big rubble  
Their life's a nightmare

We gotta see the truth  
It's tough to be alive  
21st century youth  
We gotta turn the tide

Their life goes down the drain  
Turn the tide  
They lead a life of shame  
We have to turn the tide  
We've gotta see the truth  
So turn the tide  
It's tough to be alive  
Turn the tide

He's bullied 'bout his skin  
Nobody seems to see his skills  
His race is like a sin  
So he grabs for the pills

She thinks her face is wrong  
Believes her boobs are small  
The scorn keeps coming strong  
She's got a real death call

They're so afraid to tell  
They live in misery

Their hope is up for sale  
It's a zero destiny

We gotta see the truth  
It's strange to be alive  
This puzzled online youth  
We gotta turn the tide

Their life goes down the drain  
Turn the tide  
They lead a life of shame  
Turn the tide  
We've gotta see the truth  
Turn the tide  
It's tough to be alive  
Turn the tide

She lives in cellphone town  
The queen of Facebook land  
Found dead, alone with a crown  
She had a million friends

He loves the pride parade  
He's just a gay old boy  
They served him daily hate  
He turned on self-destroy

Their life goes down the drain  
So turn the tide  
They lead a life of shame  
We have to turn the tide  
We've gotta see the truth  
Turn the tide  
It's tough to be alive  
Turn the tide

Their life goes down the drain  
Turn the tide  
They lead a life of shame  
We have to turn the tide  
We've gotta see the truth  
Turn the tide  
It's tough to be alive  
Turn the tide
