Casey's gone
Wasn't here very long
She liked to wag her tail when she got to tag along
Now Casey's gone

Casey's gone
Wasn't here very long
Heaven was a flat bed on a gravel road
Now Casey's gone

Where has Casey gone
Where has Casey gone
Into my memory that's where she lives on
That's where Casey's gone
Casey's gone
Wasn't here very long
Just an old yellow dog, just another sad song
That's where Casey's gone

Where has Casey gone
Where has Casey gone
Into my memory that's where she lives on
That's where Casey's gone
