It starts from the motions that blade 'round my mind
Causes premonition, and it takes me out of time
It's a story told over of how I came to be
Screaming from the mountains I was blind but now I
see
I am a soldier trying to be one living in salvation,
shining like the sun
Daisies and Roses are all I can see, all I'll ever live for
That sun, those stars, holy sea (loulouloulouloulou...

Oh! Lonely soldier, why are we alone?
I thought we were all connected
My, I thought we've grown, we all need attention to heal
from our cries
I dream of your smiles to drench my dying eyes
Colors and visions, mountains and streams
Nedding each other, oh baby, it's better than it seems
Daisies and roses are all i can see
All I'll ever lived for, that sun, those stars(loulouloulou...
