Keep your eyes on the new day  
You and me we are the same  
Shout it out on the horizon and don't forget to change  
your name  
I am at ease; the ocean's near the sun is sinking  
The moon is tame the fever's gone and I feel fine  
Oh baby and don't forget to write  
Que sera sera I am an orphan  
Though I see the world as new  
Do you remember when the clouds were gold  
And love was shining through  
I am at ease the ocean's near I see you smiling  
Your eyes redeem my foolish ways and you are mine  
Oh baby and don't forget to write  
And don't forget to...  
I am at ease the ocean's near the sun is sinking  
The eastern wind reveals your name across the sky  
Oh I love you and don't forget to write  
Que sera sera  
I am an ocean  
I'm sailing to be free  
Do you remember when it was beautiful forever  
Was blind but now I see  
Oh baby and don't forget to write  
Oh my darling...  
Oh baby and don't forget to write
