There was a little railroad train with loads and loads of toys

All starting out to find a home with little girls and boys
And as that little railroad train began to chug along
The little engine up in front was heard to sing this song

Choo choo, choo choo, choo choo, choo choo, I feel so good today

Oh, clear the track, oh clickety clack, I'll go my merry way

The little train went roaring on, so fast, it seemed to fly
Until it reached a mountain rising almost to the sky

The little engine moaned and groaned and huffed and puffed away

But halfway to the top it just gave up and seemed to say

I can't go on, I can't go on, I'm weary as can be
I can't go on, I can't go on, this job is not for me

The toys got out to push but all in vain alas, alack
And then a great big engine came a whistling down the track

They asked if it would kindly pull them up the mountain side

But with a high and mighty sneer it scornfully replied
Don't bother me, don't bother me to pull the likes of you
Don't bother me, don't bother me, I've better things to do

The toys all started crying 'cause that engine was so mean

And then there came another one, the smallest ever seen

But though it seemed that she could hardly pull herself along

She hitched on to the train and as she pulled she sang this song

I think I can, I think I can, I think I have a plan
And I can do 'most anything if I only think I can

Then up that great big mountain with the cars all full of
toys
And soon they reached the waiting arms of happy girls
and boy
And though that ends the story it will do you lots of
good
To take a lesson from the little engine that could

Just think you can, just think you can, just have that
understood
And very soon you'll start to say, I always knew I could

I knew I could, I knew I could, I knew I could
I knew I could, I knew I could, I knew I could, I knew I
could
