i must admit when i saw you girl  
you got my head spinning round and round  
your so beautiful like diamonds and pearls  
girl i never wanna trade you in keep it real and not  
pretend

one thing lead to another to the bedroom into the  
covers  
girl let me set you off,  
let me take you to a place you never been before  
so before you walk out that door  
let me feel your body next to mine  
take two steps back let me clear your mind  
no need to rush we got plenty of time  
if its a tues or its wends or its frid  
we got plenty of time

its midnight and the temp is rising girl  
jump in the hot stuff lets give it a round  
champagne is chillin if the feelin is right  
just tell me what mood your in we can try

one thing lead to another one thing lead to another to  
the bedroom into the covers  
girl let me set you off,  
let me take you to a place you never been before  
so before you walk out that door  
let me feel your body next to mine  
take two steps back let me clear your mind  
no need to rush we got plenty of time  
if its a tues or its wends or its frid  
we got plenty of time

so before you walk out of the door  
hold up baby girl dont you wanna know  
i can even take the train fast  
can you run fast i can run fast  
baby we can take it slow  
i can show things you never knew  
take you to places in the city up town down town  
shoot any thing you wanna do

cuz i know you know that, player never did nothing for  
you  
what u need is a real man  
i got the master plan i got this hole week planned out  
like a mon we can chill at the crib or even the holiday  
inn  
on a wend we can walk at the park make you laugh  
make you smile  
on a frid we can weigh your mind

let me feel your body next to mine  
take two steps back let me clear your mind  
no need to rush we got plenty of time  
if its a tues or its wends or its frid  
we got plenty of time

huhh..hey baby we got plenty of time  
feel me just me and you  
thats all that matters  
no what im saying  
we can do anything we wanna do i mean anything  
we got all the time in the world  
your my boo baby yeah  
i know what  
we're gonna take it nice in slow  
thats right  
we got plenty of time
