Visit "[Lost In You](#)" on MotoLyrics.com

Do you think that something left for real?
And do you think there's something left to feel?
Do you think that all the love is gone?
Do you think I'm better off alone?

BRIDGE:

Let the water wash away the tears from me
If only you could know the way it's gonna be

CHORUS:

I've been losing myself to you
And I don't know what I should do
I've been losing myself to you
Didn't mean to, but I am lost in you

Baby, stay and say you love me to
Anyway I can't get over you

BRIDGE:

Let the water wash away the tears from me
If only you could know the way it's gonna be

CHORUS x2

Where do we go?
What will it be?
What can I do?
All I want is you to get lost into

I've been losing myself to you
Didn't mean to, but I am lost in you

CHORUS x2
