"Celebration"

Visit "[Celebration](#)" on MotoLyrics.com

Ha, billion, alright

[Hook]

I'm always down to take it there

I'm always down to take it there

Don't make me fuck the party up

Don't make me fuck the party up

Cause nigga this is celebration

We getting money and we never hating

Let's have a toast to our accomplishments

You spoil the fun I hope you know the consequence

Drink it up, drink it up till you can't drink no more

Smoke that motherfucking weed till you can't see no more

My team go hard until they overdose

And we don't party with no sober hoes

I know you hate it cause we ballin nigga

Get you some paper don't be salty, nigga

I might fuck round and bring out all the killers

Make you count them ak bullets instead of my pockets
nigga

Cause we on one, we short tempered with long guns

Got enough for whoever they want some

When I turn up, they go dumb

Live house got this shit sown up

We party the hardest and no we don't argue

So if it's a problem, it's over!

[Hook]

Cause nigga this is celebration

We getting money and we never hating

Let's have a toast to our accomplishments

You spoil the fun I hope you know the consequence

I'm always down to take it there

I'm always down to take it there

Don't make me fuck the party up

Don't make me fuck the party up

Cause nigga this is celebration

We getting money and we never hating

Let's have a toast to our accomplishments
You spoil the fun I hope you know the consequence

I got bitches tryina follow me
And I ain't talking bout no social networks
They chasing my car and shit
This is not no open lecture, fuck all that talking shit
Only reason you here cause I figured we could get
naughty, bitch
Leaning from that liquor, I'm feeling like I'm a super
villain
But I promise you that I will not die in this movie nigga
Nah, nah, not this one, cause this one in particular
I got so many nigga that security could be the victims
But nigga, this a celebration, hah
Getting super high, these cookies really got a nigga
levitating
Gased up, I'm feeling like, I could fuck whoever lady
My presence will do it, but my car will get you wetter
baby
Always down to get it there, always down to stunt
Bitches switch on you, so we switching mad money
Niggas know we getting it, like we flippin bricks to
something
And we ain't stuntin, we living
Mad we do this shit here all, straight up!

[Hook]

I'm always down to take it there
I'm always down to take it there
Don't make me fuck the party up
Don't make me fuck the party up
Cause nigga this is celebration
We getting money and we never hating
Let's have a toast to our accomplishments
You spoil the fun I hope you know the consequence.
