There's a river of love that runs through all time  
But there's a river of grief that floods through our lives  
It starts when a heart is broken into  
By the thief of belief in anything that's true  
But there's a river of love that runs through all time

There's a river of love that runs through all time  
But there's a river of tears that flows through our eyes  
We fight through the night for freedom as it fades  
Into a jail where we fail everytime we make a break  
But there's a river of love that runs through all time

I had to run before I knew how to crawl  
The first step was hard  
But I have had trouble with them all  
But now the night grows darker  
And the day grows dim  
Cause I know I never will see you again  
And I almost made you happy

There's a river of love that runs through all time  
But there's a river of fire that burns with no light  
The flame is the pain of dreams gone up in smoke  
From the lies we deny and breathe until we choke  
There's a river of love that runs through all time
