

## Ice-T "Rhyme Pays"

Visit "[Rhyme Pays](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Verse one:

Magnificent rhymer, Ill beat designer  
If they ask you if I'm def. Don't front and say kinda  
Merciless. Meticulous. So fresh it's ridiculous  
Raised in the heart of Los A-N-G-E-L-E-S

King word connector. Vocal projector  
Your girl tried to jock me. I had to reject her  
Always adventurous voice some say is sensuous  
I'm on the mic so I think I better mention this

I don't like Gucci, Fila, Louie or Fendi  
Those are fads and I ain't trendy  
But wheter your names Lucy, Terry, Laura or Cindy  
Ice got beef and this ain't Wndy's

Bust allmenn move while I'm talkin'  
Sucker rappers I be stalkin'  
When they see me on the street with my homeboy  
walkin'  
They slow down, turn around and ask was that Ice ?

Then they see me cold countin' my cashi  
Rhyme pays ----!!

Verse 2:

Moves must be busted, girls can't be trusted  
I looked at your lady and I was disgusted  
Came into the party just to rock the place  
And your big zombie lookin' freak still won't get out of  
my face

I don't mean to diss her, but do you kiss her ?  
Look at her hips, she's got those crazy blisters  
Body that smells like the New York mets  
Arm pits all nappy packed full of sweat

I hope this something that you never forget  
Tie that freak outside next time you come in a set  
Because my jams be crazt packed with all fly ladies

I'm talkin' def girlies and I don't mean maybe

The way I rhyme no one will ever slay me  
And I ain't lyin' rhyme do pay me !

Rhyme pays ---- !!

Verse three:

I'm notorious, I'm infamous. Like a snake I'm venomous  
For those who may diss I think you shoul consider this  
I can make a rhyme comlicated as a puzzle  
Dangerous and as violenl as a pit bull in a muzzle

But this record is for radio s-t-e-r-e-o  
It not to be banned or for some underground mix show  
My hearts in my pen every time I begin  
Sometimes my lyrics go crazy and I just can't control  
em my friend

I try to edit what I'm rasppin' about  
But I can't write polite my anger just jumps out !!  
Perpetrators in the business claim their hard as hell  
Talkin' that gangster shit, known they're soft as jell-

Oh! Better chill out before I ill out  
And my negative potential just might ne spill out  
And then this record won't be gettin' played

I'll save that rap for another day

-Rhyme pays-

Verse four:

The front stage area goes into hysteria  
As I start to rhyme and unleash my criteria  
Of what is to come during the beat of the drum  
And Evil agitates the records with the use of his thumb

Using his intricate moves the rcord stays in the  
grooves  
My body cuts like Jason it's easy to prove  
That Evel E is the great. His cuts are real not fake  
Not emulated effects or a play back tape

So suckers witness your fate while Evel demonstartes  
I'm bout to get off this nic. E. Dog the break - Kick it !

Verse five:

Like me if ya want'a. Diss me if you're gonna  
But my jam will still be kickin' on your neighborhood  
corner  
As my bass is max'n out the v.u.s on your box  
There'll be no doubt within your mind wheter this MC do  
rock

Like granite. I planned it. So you could understand it  
If someone's talkin' when I'm rhymin'  
Then just say. Damn shut up !

While Ice is breakin' the boy don't be fakin'  
Maybe they're just jealous of the dollars I'm makin'  
But you're down with me. You know god gifted me  
Black kids say I'm trech, white kids say I'm nifty

Spell out my name ya go I-C-E-T  
But right now it's time for Evel E to hit me!

Verse six:

Rhyme pays. Buys my food every night and day  
Pays my rent my bills I guess I'm doin' ok  
But when I say rhyme pays. I mean in different ways  
Cause rappin' gets a lot of kids out of the streets each  
day

It makes me feel real nice when someone likes the Ice  
Or some young MC asks me for advice  
But there will always be rappers who hate Ice T  
Maybe I dogged 'em in a battle or just jealousy

Inevitable situation. Sucker rapper frustration  
I rhyme too tough to bite. Too intricate for notation  
Syllables jumbled. Competitors crumble as they witness  
mic attack  
And the microphone rumbles like hurricane

I maim. Sometimes I go insane  
Step toward my rep and i inflict the pain !  
No shame Ice capital it's my name !!  
Damn there I go illin' out again !!!!
