Now what of you was me and vice versa
Would you still be a hater like I was out there to hurt
you
Could you do it for your fans and still support your...
Leave with niggers try to kill you could you look in the
eye
Of the family of the victim.I am talking vice verse
If you was me could you take one and leave with two or
three
Run with dump ass niggers... hit them up
I don't know how but somehow I got high...
I stay surrounded by the gangster niggers... I am
talking vice versa
I got no time to turn it on... nigger suffer... vice versa
I am tired of hurting I told my momma I got... like a man
should
I figure they would I plan good I am just happy they still
talking about me

Niger I am all one damn right nigger already know
what is on... this little
Light of mine
Don't be the only reason so I could give a damn of what
a hater got to say
... short the road... every time I get bored... I just need a
mouth...
Make your... fuck it what you are around for... taking
over the game
If it would be the vice versa I would be a fucking lame
But it ain't... my engine is my witness... is a master on
the boo
I put my dick on the tray... and I fuck her and her
friend... niggers
Couldn't even seen me
If they were right here in the room... is just a little clear
look at it
You see yourself like a fool mirror... nigger
