When I was young I was different
But there was more inside of me
So alone, yet a sense of purpose
The guiding light of the Order nurtured me

Daunted by the truth revealed
What am I? What's my destiny?
A million souls, the priest incarnate
I am the one, I am the astral beast

I am the wicked, the dealer of fate
Harbinger of sorrow
I'm the assassin, the dealer of fate
Framing man's tomorrow

I thrive as the lone traveler
Through the folds of time and space
The chosen one to foreshadow
The hand of God will eradicate this race

I am the past, I'm the cure for sorrow
I am the now, I'm of every age
I'm the future ending man's tomorrow
The hand of God, the harbinger of fate

I am the wicked, the dealer of fate
Harbinger of sorrow
I'm the assassin, the dealer of fate
Framing man's tomorrow

Kingdoms will fall, empires crumble
Seizing on the politics of hate
I am the one, the devil in the details
The hand of God, the harbinger of fate

I am the wicked, the dealer of fate
Harbinger of sorrow
I'm the assassin, the dealer of fate
Framing man's tomorrow
