...at last we will claim  
What is rightfully ours  
Absolute power, absolute knowledge  
All the galaxies and the subjects therein  
Will kneel before the human race  
Unlimited power  
Unlimited knowledge

At last within my grasp  
We are one step closer to cleansing  
We claim the universe  
Causing galaxies to cower  
Unlimited power  
Unlimited knowledge for...  
Man will no longer be seen  
as primitive or inferior  
Unlimited power  
Unlimited knowledge for Man
